Career Summary

Final-Year Software Engineering Student specializing in Software Quality Assurance, API Testing, and Manual Validation. Hands-on experience executing 30+ manual test cases, logging defects in Jira, validating API endpoints in Postman, and verifying backend data integrity. Skilled in SDLC/STLC processes, boundary analysis, and building structured test documentation to drive high software reliability, with a strong eagerness to learn and transition into modern test automation.

Core Competencies

- **Testing Methodologies:** Functional Testing, Regression Testing, Smoke Testing, Boundary Value Analysis (BVA), Equivalence Partitioning (EP).
- **API & Database Testing:** Postman (Collections, Scripts, Payloads), SQL Queries, JSON Parsing, Python.
- **Tools & Lifecycle:** Jira (Sprint Management & Bug Tracking), GitHub, Bug Lifecycle Logging, Requirements Traceability Matrix (RTM).
- **QA Principles:** Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Agile/Scrum.

Professional & Technical Experience

Independent Web Security Auditor | Arid Web Portal

- Designed and executed 30+ manual test cases covering functional flows, boundary value analysis, and user session management.
- Identified and documented 5 critical vulnerabilities regarding data exposure and session logic, providing reproduction steps to dev leads.
- Achieved 100% test coverage across primary portal workflows, establishing formal bug reports with severity and priority ratings.

Team Lead (Operations & Reporting) | Cloud Wave Innovations | Rawalpindi, Pakistan | July 2025 - Dec 2025

- Managed daily technical operations and QA compliance for an 11-member team, ensuring 100% adherence to performance metrics.
- Optimized reporting workflows and task tracking, achieving a 25% reduction in data logging error rates over 6 months.
- Prepared and delivered 24+ weekly analytical reports to executive stakeholders, maintaining a 100% on-time work delivery rate.

Education

BS in Software Engineering | University Institute of Information Technology (PMAS-AAUR), Rawalpindi | 2023-2027

Certifications

- Learning Jira Leveraging Sprints Releasing Features Fixing Bugs and Tracking Development - linkedin
- Apply API Testing & Automation with Postman Specialization - EDUCBA | Coursera
- Professional Diploma in Agile Product Management - Udemy

Workshops

- **Build with AI Workshops** - GDG Cloud Islamabad
